## NOTES AND MAINTENANCE

### NOTES AND MAINTENANCE

- IMEC iFRESH 5 is suitable for all areas where fragrance is required eg Washrooms, Offices, Hotels, Hospitals, Factories, Childcare Centers etc.
- Choose a suitable place for installation. Avoid direct contact with water and sunlight as it will caused damage to the sensor and motor mechanism.
- Change new battery when the Power Indicator Light flash continuously to signal that the battery is low.
- Use only the original IMEC NF60 refill to keep your environment freshly fragranced all day for a premium scent experience.
- Wipe clean with wet cloth or dry towel only. Do not clean the dispenser in the water.
- Do not use corrosive chemicals to clean the dispenser to avoid damage.
- Do not put the dispenser into fire or direct contact with high temperature to avoid explosion.
- Change the battery when the Power Indicator Light flash continuously to prevent battery leakage in the motor mechanism which can caused damage to the motor.
- Please take out the battery and refill when it is not in use.
- If the dispenser is not working or no fragrance:
  - Check the power is on.
  - Check the battery is properly installed and in the right direction (+/- indication).
  - Check the refill.
